IT'S ABOUT LIVING

" Lazarex made it possible to travel to the trial and stay in the trial. Finding my way to Lazarex was a godsend."

- Diagnosed with breast cancer in 2007
- Diagnosed with lung cancer in 2019
- A decade later, stage III lung cancer recurrence
- Despite aggressive treatment, the cancer spread
- Doctor gave me six months to live
- I found a clinical trial at MD Anderson Cancer Center
- I learned about Lazarex Cancer Foundation, which reimburses patients for clinical trial travel costs
- Lazarex made it possible to travel to the trial and stay in the trial
- As a 3rd time cancer survivor, I'm now filled with hope

Q: How did you make the decision to participate in the trial?
"After my doctor gave me six months to live, I searched for an option that would extend my life in any way possible. A clinical trial was another option for me."

Q: What exactly is a clinical trial?
"A clinical trial is getting the best of what is available for my disease with the potential to help other patients."

Very Important Patient (VIP) Tips:

- Do not accept cancer as a death sentence
- Explore all your options!
- Create a support group of friends and neighbors
